

# The Success Sequence Program

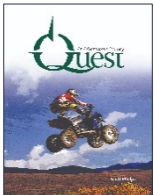

## Program Overview

The Success Sequence Program consists of four character-based workbooks designed to teach youth the optimal pathway for future success with a clear emphasis on the objective benefits of reserving all sexual activity and childbearing for marriage.

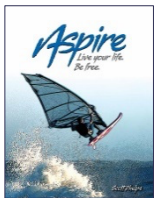

**Game Plan**, developed with NBA star A.C. Green, uses a sports analogy to help students understand the importance of strategically setting goals, including saving sex for marriage. Students are encouraged to make a Game Plan for their lives and to stay focused on academic achievement.

*8 Chapters, 80 pp. Grades 6-9*

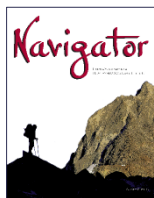

**Quest** uses powerful stories to help students along life's journey. Practical instruction helps students identify their future goals, such as marriage and family, and avoid obstacles such as sexual activity and other risk behaviors that could keep them from achieving their goals.

*8 Chapters, 84 pp. Grades 7-10*

**Aspire** encourages students to seek their future goals, including education and financial success, as well as healthy future marriage and family life. Classroom activities help students understand practical ways to resist pressure and plan for their future, offering youth a positive path forward.

*8 Chapters, 88 pp. Grades 8-11*

**Navigator** helps students identify and avoid risk behaviors such as sexual activity, pornography, alcohol, tobacco, and other drugs. Students are encouraged to navigate their way to a healthy, successful future. Navigator helps students understand the objective benefits of abstinence.

*8 Chapters, 86 pp. Grades 9-12*
